Our Market Intelligence does not come from books, or publications, or stats or averages. It comes from actual aircraft owners, verified sales numbers, from reliable brokers within the market and from institutions that have the capital to make things happen.

---

  - We surround ourselves with the best in the business, so that when it comes to financing, insurance, tax issues or questions, pilots, maintenance, pre-buys and management we can put you in a position to make confident decisions.
  - We don't assume anything.
  - Proactive marketing: Targeting the people or groups who are most likely to buy your type of aircraft affords you the opportunity to get the best possible price in the shortest period of time.
