New Paint 2012

INSPECTION STATUS:

Phase 1 test flying is complete.
Aircraft will be delivered with everything current and full FAA certification in the experimental exhibition category.

Aircraft subject to prior sale.
All times and specifications subject to verification.

GENERAL INFORMATION:

The MiG 29UB is the two seat version. There have been approximately 90 built and we currently have two of them here in the U.S. The team that reassembled this aircraft has nearly two decades of experience working on MiG 29s for foreign airforces.

The following pictures were taken over a period of time from when the a/c first arrived in the U.S., during some of the assembly process, the flight test phase and some recent ones.
