

2017 Cessna Citation Latitude (Fractional For Sale)
S/N

**SPEC
SHEET**

Save thousands in upfront costs and avoid a minimum contract term by choosing a remarketed fractional share.

This 75 annual hour Citation Latitude ownership interest garners every benefit as one purchased from NetJets directly including a 10-hour notification period for US travel (excluding peak days), the ability to access other aircraft in the NetJet fleet, and access to the Caribbean Islands, Canada, Alaska, Mexico and most of Central America without ferry fee.

By stepping into a previously negotiated contract, the new owner garners the benefit of a lower up-front cost than if purchasing from NetJets directly. Add to this that the existing contract is beyond its minimum term meaning you can opt-out of the program at any time with 90-day
